## Welcome to ANP Lighting

**U.S.A. Made | Family Owned & Operated | Breadth of Product**

Since 1985, ANP Lighting has been skillfully integrating design aesthetics, engineering excellence, and advancing technology to manufacture an extensive line of decorative architectural lighting and warehouse-inspired RLM fixtures. With our privately owned foundry and spinning facilities and in-house engineering department, we can quickly and cost-effectively modify any product to deliver an affordable custom modification solution. We empower architects, engineers, and specifiers to meet the growing demand for energy conservation, sustainability, and environmental design inspiration. We design and manufacture the largest collection of LED decorative architectural lighting available today, including luminaires, bases, poles, and bollards, and is recognized as the number one manufacturer of RLM fixtures and mountings in the industry.

CITY OF LOS ANGELES, 1ST STREET BRIDGE Los Angeles, CA

The City of Los Angeles looked to ANP to fabricate a custom period lantern and large scale arm for the 1st Street Bridge modernization project. Working from sketches provided by the city, our engineering team and in-house foundry created this distinctive, proprietary lantern and post arm to match the historic architecture of the bridge. The heavy duty, cast aluminum constructed luminaire works seamlessly with the massive bracketed arm as well as a companion pendant mount.

The committed partnership between the City of Los Angeles and ANP Lighting made this monumental project both an aesthetic and performance success.
